

## Can you Think of a Better Lesson?

The AAA School Safety Patrol™ program has helped improve safe travel to and from school for more than 85 years. Statistics show a 93-percent reduction in pedestrian fatalities thanks to educational efforts and safety improvements near schools. Since 1949, AAA has awarded lifesaving medals to 373 patrollers who have saved the life of another person while on duty.

Instill the lifelong learning benefits the AAA School Safety Patrol™ program can bring to your student body and make your school a safer place. Your patrollers will benefit as they learn:

- Leadership and organizational expertise
- Safe mobility skills and proper traffic interaction
- Responsibility and commitment
- Volunteerism and duty
- The important role of being a dependable citizen

To join more than 500,000 AAA School Safety Patrollers in 50,000 schools nationwide in helping make schools a safer place, contact your local AAA club.
